

CONDITIONS

The applicant agrees to comply with the current “Rules and Regulations – Standard Specifications – Right-of-Way Excavation Operations” that govern Village right-of way excavations. Particular attention is called to the following:

1. The Village reserves the right to inspect all excavations containing water or sewer lines from the point of public connection to the building where used, prior to backfilling. Forty-eight (48) hour prior notice shall be given the Village as to when the line installment is to be completed.
2. In the event a sewer or water connection is to be made on a State or County highway, applicant will be required to obtain the necessary permit forms from the appropriate authority.
3. Before starting work, contact Dig Safely New York at 811. This is mandated by State Law. The issuance of this permit does not obligate the Village nor does it constitute approval of any excavation which might interfere with these utilities.
4. The Plumbing Inspector is authorized to revoke any permit if it is found that any Village of North Hornell ordinances and/or “Rules and Regulations - Standard Specifications – Right-of-Way Excavation Operations” that govern Village streets and rights-of-way are being violated.

INDEMNIFICATION

Any person not an authorized employee of the Village of North Hornell who undertakes to install, repair, or maintain any services performed on, over, or under Village owned or controlled land shall indemnify, defend and hold harmless the Village of North Hornell and its agents, employees and consultants from and against all claims, damages, losses and expenses, including but not limited to any deaths, personal injuries property damage, director and consequential damages, attorney fees arising out of or resulting from or in connection with installation, repair or maintenance of such services except to the extent such claims, damages, losses and expenses are solely caused by the active negligence of the Village of North Hornell.
